**Location:** 35 Adams Road

**Project:** Installation of a ground mounted solar, construction of a two car garage and extension of driveway.

*JH opened at 7:07pm; Bill Cadogan (BC) presented revised plans showing existing driveway and driveway extension which is slightly in 100ft buffer. BC advised he is still not sure of trenches – he has to get DigSafe in due to existing pipes in the ground. JL requested a complete set of plans showing the planned trenches; JH reiterated he wants to see the trenches on the plans; BC advised he operates as a tree farm and requested an agricultural exemption – KH advised this is not on the agenda for tonight; BC is very concerned he is running out of time to accomplish his project; KH, JL & JH reiterated they need to see the trenching on the plans; BC requested a continuation. Solar contractor asked for clarification if anything besides the trenching needs to be shown on the plans. JH reiterated that all the work needs to be shown on the plans and to avoid the 35' no disturb area. KH motioned to continue to next meeting; AL seconded AIF.*
