

MOTOR VEHICLE EXCISE ABATEMENT APPLICATION

General Laws Chapter 60A

RETURN APPLICATION FORM AND DOCUMENTATION TO: Board of Assessors

INSTRUCTIONS. To apply for an abatement (or refund if excise has been paid), complete this form and provide the specified documentation.

Abatement applications **must** be received by the assessors within three years after the excise was due, or one year after the excise was paid, whichever is later. To preserve your right to appeal, you must file on time. By law, assessors may only act on late applications in limited circumstances where the excise is still unpaid and their decision in those cases is final.

Filing an application does not stay the collection of your excise bill. To avoid interest, charges and collection action, including non-renewal of your registration, you must pay the bill in full within 30 days of its issue date. You will receive a refund if an abatement is granted.

NOTE. You are **not** entitled to an abatement if you (1) cancel your registration and retain ownership of the vehicle, or (2) move to another Massachusetts city or town, during the calendar year. No excise may be reduced to less than \$5.00. No abatement or refund of less than \$5.00 may be made.

How was the valuation determined?

CLAIM INSPECTION

LIBERTY MUTUAL INSURANCE COMPANY has provided CCC with the zip code where the loss vehicle is garaged, loss vehicle VIN, mileage, equipment, as well as loss vehicle condition, which is used to assist in determining the value of the loss vehicle.

DATABASE REVIEW

CCC maintains an extensive database of vehicles that currently are or recently were available for sale in the U.S. This database includes vehicles that CCC employees have physically inspected, as well as vehicles advertised for sale by dealerships or private parties. All of these sources are updated regularly.

SEARCH FOR COMPARABLES

When a valuation is created the database is searched and comparable vehicles in the area are selected. The zip code where the loss vehicle is garaged determines the starting point for the search. Comparable vehicles are similar to the loss vehicle based on relevant factors.

CALCULATE BASE VEHICLE VALUE

Adjustments to the price of the selected comparable vehicles are made to reflect differences in vehicle attributes, including mileage and options. Dollar adjustments are based upon market research.

Finally, the Base Vehicle Value is the weighted average of the adjusted values of the comparable vehicles based on the following factors:

- Source of the data (such as inspected versus advertised)
- Similarity (such as equipment, mileage, and year)
- Proximity to the loss vehicle's primary garage location
- Recency of information

Vehicles sold in the United States are required to have a manufacturer assigned Vehicle Identification Number(VIN). This number provides certain specifications of the vehicle.

Please review the information in the Vehicle Information Section to confirm the reported mileage and to verify that the information accurately reflects the options, additional equipment or other aspects of the loss vehicle that may impact the value.

Allowances are factors influencing the value of the loss vehicle when compared to a typical vehicle. The typical vehicle is a vehicle of the same year, make, and model as the loss vehicle, including average mileage, and all standard equipment. These allowances are displayed for illustrative purposes only.

The CCC Base Vehicle Value is calculated from the comparable vehicles with adjustments to reflect the loss vehicle configuration

LIBERTY MUTUAL INSURANCE COMPANY uses condition inspection guidelines to determine the condition of key components of the loss vehicle prior to the loss. The guidelines describe physical characteristics for these key components, for the condition selected based upon age. Inspection Notes reflect observations from the appraiser regarding the loss vehicle's condition. CCC makes dollar adjustments that reflect the impact the reported condition has on the value of the loss vehicle as compared to Normal Wear condition. These dollar adjustments are based upon interviews with dealerships across the United States.

Distance is based upon a straight line between loss and comparable vehicle locations.

*The **Condition Adjustment** sets that comparable vehicle to Normal Wear condition, which the loss vehicle is also compared to in the Vehicle Condition section.
