

Hi Paul,

I find myself with an incomplete understanding regarding the new "autonomy" for the Water Department. In an effort to help me understand, I am requesting a copy of the letters from your Counsel (mentioned at last night's meeting) regarding the "autonomy" of the Water Department and requesting that a joint meeting with the Selectmen be set up to resolve the situation. I would also like a copy of the two letters you sent to the Selectmen/TA requesting a joint meeting and any legal opinions you have received from Town Council or the Water Department Counsel regarding the "autonomy" and your Union membership.

Thank you,

Andrea
